Romanian Association for Electronic Industry and Software – TRANSILVANIA Branch is a regional body of company from IT&C fields.

The goals of ARIES TRANSILVANIA are to promote professional and commercial interests of members from Nord -West regions of Transylvania, to strengthening their representatively and authority at the national and international level.

By constituting this branch we propose to increase activity of ARIES from this area, to involve in activities regarding IT&C sector, to establish a better collaboration between companies from the same field, to promote local interests at the national and international level, to access available funds from different funding programs.

The main objectives of ARIES TRANSILVANIA are:

- share resources
- to support development of business environment
- to support institutions interested in technological transfer
- development of Information Society
- standards on IT&C fields
- involving in processes of elaboration and application of regional policy on IT&C fields
- contact, cooperation and collaboration between companies and organizations from Romania or from abroad interested in IT&C fields
- prepare the companies to integrate in EU

Members of our association are well know companies and also, new companies. Our goal is two put together different types of companies and help them to cooperate and build a strong body which can be a partner more representatives for this part of Romania. Our members are from 4 counties of Romania: Bihor, Cluj, Maramures and Satu Mare. We propose to attract new members from Bistrita, Salaj, Alba, Mures and Sibiu.

Competences of companies staff recommend us as the most indicated to offer consultancy and support to all type of companies regarding IT&C fields.

We organize workshops and training sessions for our member's staff and for specialists in IT field from public or private organizations.

We have a strategic partnership with Local Authorities and Regional Development Agency for development of Regional Development Plan for 2007-2013. We and our members have projects with public and private institutions to set up business incubators and develop technological parks.

Also we have a close cooperation with universities environment, Chambers off Commerce and with Transylvania Business Center.

ARIES TRANSILVANIA disposes of a large database of IT&C companies from North-West of Romania. Our intentions is to have in this database corporate, SME, feelandres, students, all actors involve in IT&C field.
